

# Song 446 More Than a Texas Belle

H. Roice Nelson, Jr., 21-22 August 2024, Cedar City, Utah, 4th fret, Travis Pick

C.      Dm      Bm                  G                  A  
Beautiful girl, you will find college a swirl  
Dm                  Bm          G                  A  
Of colors and sounds, classes and gowns  
G                  A                  D                  Bm  
Finding yourself and preparing for a veil  
G          A                          D  
You are more than a Texas Belle (last) :|

1.      C          G                          F                  C  
Halle Nalise, we took photos soon after your birth  
C                  G                          F                  C  
Then again 43 days later at your baby blessing  
F                  G                          C                  F  
Dressed like a princess, between your two Grandpas  
F                          G                          C  
You have always had people love and watch over you

2.      C          G                          F                  C  
Always pretty, with a lot of dark long hair  
C                  G                          F                  C  
Having fun dressed in a pile of leaves  
F                  G                          C                  F  
Soccer games, a birthday party with a scavenger hunt  
F                  G                          C  
Painting a birdhouse the color of a graceful Swan

3.      C          G                          F                  C  
A lovely dish, you tried playing the violin  
C                  G                          F                  C  
Preferring to play basketball when living in Katy  
F                  G                          C                  F  
Apprehensively holding one of Ken Turners chickens  
F                  G                          C  
Later you were baptized in a white princess gown

4.      C                  G                  F                          C  
Popular and a favorite, the belle in countless photos  
C                  G                          F                  C  
In May 2012 wanting to be a geologist, liking rocks  
F                  G                          C                  F  
Watching and helping your Dad build his office  
F                          G                          C  
When not standing on your hands with family member
